

Meine Schule e. V.

Sport, Bildung und Kultur

Description of the local group:

Everyone is welcome - no matter where they come from. We want to bring together what belongs together: people who are looking for new knowledge and people who want to pass on this knowledge.

Our association's philosophy is "promotion through education".

Education determines success in the job market. Education is important for the opportunities in life and thus also for the willingness to integrate.

Our teachers' own immigration experience, their multilingualism and their commitment make them credible. They are recognized not only by immigrants, but also by locals who appreciate the good teaching quality and the international coexistence. An educational and colourful program for young children, adolescents and adults makes the association unique. The association thus provides important impulses for the coexistence of all cultures and nationalities.

Who we are:

Sport, Education and Culture "Meine Schule" e. V. was founded in Wiesbaden on 8 May 2008 by members of the German National Team of Russian origin. Our association has grown to over 130 members to date.

What we do:

We organise a varied afternoon program in the creative, musical, sporting and linguistic fields. This is how we promote the talents and skills of every child. We organise international youth exchange programs, teach Russian as a first and second language, as well as French and English. We also have an art workshop, a play and support group and offer music education. The association is open to all nationalities, it is not restricted to any particular origin, nationality or religion.

The association wants to motivate immigrants and natives to actively work together.

Children, adolescents and adults experience all this and much more in the association SBK "Meine Schule" e. V.

How can I participate:

Our door is always open!

Are you interested in our course offers or do you have open-ended questions?

Then visit us at Friedrichstraße 35, send us an e-mail or simply give us a call.
